

PREVENTIVE MEDICATION PROGRAM

Generics Drug List

Coverage as of January 1, 2022

Preventive medications are used to prevent certain conditions from developing, or to prevent a condition from coming back. These conditions include, but are not limited to, asthma, depression, diabetes, heart attack, high blood pressure, high cholesterol, osteoporosis, prenatal nutrient deficiency and stroke.

About this drug list

This is a list of the most commonly prescribed generic medications that are part of Cigna's preventive program as of January 1, 2022.^{1,2} Medications are listed alphabetically by condition. **This drug list doesn't include preventive medications that are covered at 100%, or no cost-share (\$0) to you, under the Patient Protection and Affordable Care Act (PPACA)'s preventive services coverage requirement.**

This drug list is updated often so it isn't a complete list of medications. Also, your specific plan's preventive medication program may not include all of these medications and/or conditions.

Log in to the **myCigna**® App or **myCigna.com**, or check your plan materials, to see all of the medications included in your plan's preventive medication program and how much they cost.

Your cost-share for preventive generic medication

Not all plans offer the same cost-share for their preventive medication program. For example, some plans may require you to pay a copay, coinsurance and/or deductible for preventive generic medications; other plans may not.

Log into the **myCigna** App or **myCigna.com** and use the Price a Medication tool to see how much your medication may cost you at the different pharmacies in your plan's network.³

Together, all the way.®

Offered by: Cigna Health and Life Insurance Company, Connecticut General Life Insurance Company, or their affiliates.

Preventive Medication Program - Generics Drug List

Some plans may not include all of these medications and/or conditions in their preventive medication program. Log in to the **myCigna** App or **myCigna.com**, or check your plan materials, to see which medications your plan includes in the program and how much they cost.
